

3 IMPORTANT STEPS TO FOLLOW FOR COMPLETE SUCCESS

1. KEEP QUICK SHOT FRESH, MIX ONLY ENOUGH FOR EACH SHIFT. IT ONLY TAKES 2 MINUTES TO MIX. IF YOU HAVE SOME LEFTOVER, GO AHEAD AND USE IT IN THE NEXT MILKING SHIFT BUT DON'T MIX ANYMORE UNTIL IT IS ALL USED.
2. MIX QUICK SHOT ACCURATELY AND KEEP MIXING EQUIPMENT CLEAN
3. MAKE SURE THE COWS TEATS ARE 100% COVERED BOTH PRE AND POST DIPPING. WE CANNOT IMPROVE THE SKIN IF IT DOESN'T RECEIVE COVERAGE.

SIDE NOTE:

A DAIRYFARMER FROM MISSOURI CALLED AND ORDERED A SET OF QUICK SHOT TEAT DIP. HE MENTIONED THAT HE HAD WEATHER CRACKS ON HIS THUMB THAT HURT AS MUCH AS A BROKEN ARM. AFTER JUST 3 DAYS OF USING QUICK SHOT ON HIS COWS TEATS AND HIS THUMB, HE CALLED BACK THRILLED TO DEATH TO REPORT THAT THE SKIN ON HIS COWS TEATS WERE MUCH IMPROVED AND THAT HIS THUMB WAS NEARLY HEALED!

QUICK SHOT IS REVOLUTIONIZING TEAT SKIN CARE

QUICK SHOT 5 NOW HAS **2 LEVELS OF CONDITIONING**. YOU SIMPLY USE 1 OF THE 2 RECIPES PROVIDED AND INCREASE OR DECREASE THE AMOUNT OF PART B TO ACHIEVE PRIME SKIN CONDITIONING FOR THE MOST ECONOMICAL PRICE ON THE MARKET.

FOR EXAMPLE:

IF YOU PURCHASE QUICK SHOT 5 TEAT DIP AND YOUR TEAT SKIN IS CHAPPED OR ROUGH AND THE TEAT ENDS HAVE HYPERKERATOSIS, SIMPLY MIX QUICK SHOT 5 AT THE HIGHEST CONDITIONING LEVEL (**LEVEL 2**) AND WATCH HOW QUICKLY THE SKIN CONDITION IMPROVES. THIS NORMALLY TAKES 3-7 DAYS. WHEN THE TEATS ARE MUCH IMPROVED SIMPLY CHANGE RECIPES OF QUICK SHOT 5 TO THE NEXT LOWER LEVEL (**LEVEL 1**) FOR CONTINUED GREAT RESULTS. IF BAD WEATHER IS PREDICTED SIMPLY GO BACK TO LEVEL 2 AND GET AHEAD OF CHALLENGES THAT MAY BE COMING.

SEE RECIPES ENCLOSED

QUICK SHOT 5 RECIPES LEVEL 2 (HIGHEST CONDITIONING)

1 GALLON RTU (READY TO USE) LEVEL 2

ADD: 12 oz (354ml) PART B

ADD: 6 oz (177ml) PART A

ADD: 110oz (3244ml) WATER

STIR UNTIL WELL MIXED

½ GALLON RTU LEVEL 2

ADD: 6 oz (177ml) PART B

ADD: 3oz (88.5ml) PART A

ADD: 55oz (1622ml) WATER

STIR UNTIL WELL MIXED

1 QUART RTU LEVEL 2

ADD: 3 oz (88.5ml) PART B

ADD: 1.5 oz (44ml) PART A

ADD: 27.5 oz (810ml) WATER

STIR UNTIL WELL MIXED

1 PINT RTU LEVEL 2

ADD: 1.5 oz (44ml) PART B

ADD: .75 oz (22ml) PART A

ADD: 14 oz (405ml) WATER

STIR UNTIL WELL MIXED

LEVEL 1 (LOWEST CONDITIONING)

1 GALLON RTU (READY TO USE) LEVEL 1

ADD: 8 oz (236ml) PART B

ADD: 6 oz (177ml) PART A

ADD: 114 oz (3362ml) WATER

STIR UNTIL WELL MIXED

1/2 GALLON RTU LEVEL 1

ADD: 4 oz (118ml) PART B

ADD: 3 oz (88.5ml) PART A

ADD: 57 oz (1681ml) WATER

STIR UNTIL WELL MIXED

1 QUART RTU LEVEL 1

ADD: 2 oz (59ml) PART B

ADD: 1.5 oz (44ml) PART A

ADD: 28.5 oz (841ml) WATER

STIR UNTIL WELL MIXED

1 PINT RTU LEVEL 1

ADD: 1 oz (29ml) PART B

ADD: .75 oz (22ml) PART A

ADD: 14.25 oz (420ml) WATER

STIR UNTIL WELL MIXED
